Because Milton Keynes is an exciting, vibrant new town which is still developing, its school community continues to grow year-on-year. This means we have had 100% employment of our graduate trainees for the last four years and have a 95% retention rate five years later, which is higher than the national average.

The building of so many new schools inspires creativity, pioneering new environments and practice; and the opportunities for teachers' professional development and advancement into positions of leadership exceeds that of more established communities.

SCHOOL TO SCHOOL SUPPORT

Milton Keynes Teaching School Alliance has a proven track record of successful working partnerships with a range of schools. Our approach is collaborative; our support is bespoke and targeted.

Our school to school support packages draw upon the recognised expertise and outstanding practice of middle and senior leaders in our schools, including Specialist, Local and National Leaders of Education. They include:

Pupil Premium Reviews

SEND Review – A review of SEND provision, policy and approaches adopted by the school to ensure high-quality education for SEND pupils. The review will evaluate key areas detailed in the SEND Code of Practice, however, the structure of the day can be bespoke to the school. Reviews typically include learning walks, meetings with key members of staff and stakeholders, scrutiny of SEND paperwork and observation of provision. At the end of the review, the school will receive a report detailing strengths of the school in relation to SEND provision and also an action plan to support them with ways forward to further develop this area.

Governance Reviews

- * Targeted safeguarding audits and action planning
- * Inclusion audits and action planning
- * Coaching and mentoring of recently appointed headteachers
- * Leadership coaching
- * Curriculum design and leadership
- * Subject specific support
- * Reviews of the quality of teaching, learning and assessment
- * Successful data tracking and interventions
- * Support for TAs
- * and much more...
